Nata de Coco Article

This website will likely have a single-page design, with a sticky navbar to jump between sections. I will probably use graphics and photos to add variety to each section. I plan on having the following sections:

- **Summary** – Will include a photo of my favorite nata de coco drink!
- **Etymology** – Covers what the name means in Spanish.
- **History** – This will be the main focus of my article, including how it was created by a Filipina food scientist and how it became so useful.
- **Nutrition** – Quick nutrition facts! I could maybe represent these in an FDA nutrition facts label.
- **Production**
- **Dessert**
- **Sources** – Including this Wikipedia article and any other photos and sources I choose to use.
